PROFESSIONAL SUMMARY

Multidisciplinary Product Designer with a 5+ year foundation in graphic design and hands-on experience in UI/UX and front-end development. Experienced in turning complex product requirements into intuitive, visually thoughtful digital experiences, from early concepts and high-fidelity Figma designs to production-ready interfaces.

TECHNICAL SKILLS

Design & UI/UX: UI/UX Design, Product Design, Wireframing, Rapid Prototyping, User Flows, High-Fidelity Design, Developer Handoff, Component Design, Figma, Adobe Photoshop, Adobe Illustrator

Frontend Frameworks: Vue.js, React.js, Nuxt.js, Tailwind CSS, Bootstrap, Shadcn UI, HTML5, CSS3

Backend & Databases: Laravel, Supabase, MySQL, RESTful APIs

Tools & Workflow: Git, SourceTree, AWS S3, Brevo, Agile/Scrum

PROFESSIONAL EXPERIENCE

Software Engineer

Ayahtek | Oct 2025 – Present

- Designed and developed responsive interfaces for enterprise SaaS and e-government platforms using Vue.js and Tailwind CSS, translating complex product requirements into clear, scalable user experiences.
- Translated high-fidelity Figma designs into production-ready interfaces while maintaining visual consistency, responsive behavior, and reusable component patterns.
- Collaborated with stakeholders and engineers to identify UX improvements and evaluate technical feasibility throughout the product development process.
- Built and maintained a reusable UI component library using Shadcn UI and Tailwind CSS, improving consistency across products and streamlining development workflows.

UI/UX Designer & Front-End Developer Intern

Ayahtek | Jan 2025 – Jul 2025

- Translated wireframes and high-fidelity designs into responsive, developer-friendly interfaces.
- Contributed to UI/UX design and front-end development across company projects using Figma, Tailwind CSS, and WordPress.
- Collaborated with engineers to refine component handoffs and improve design-to-development workflows.

Graphic Designer & UI/UX Designer

Freelance | Jan 2021 – Present

- Designed brand identities, digital interfaces, web layouts, social media assets, and print materials for local and international clients.
- Created UI/UX concepts and high-fidelity prototypes in Figma, balancing visual craft, usability, and client requirements.
- Managed end-to-end freelance projects, including requirements gathering, design iterations, client feedback, and final asset delivery across 15+ projects.

Creative Design Director

FEU Tech Alliance of Information Technology Students | Oct 2022 – Jul 2024

- Led the creative team for two years, developing branding, visual identities, and digital assets for major organizational events while establishing visual standards across deliverables.
- Transitioned into a supporting junior-officer role during my final year, mentoring the incoming creative lead and team while providing creative direction and continuity.

TECHNICAL PROJECTS

KonektaLaw — Legal Tech Platform

Product Design · UI/UX · Branding · Web & PWA Development

Led product design from branding and UX flows through high-fidelity UI design and development for an application connecting justice-seeking clients with lawyers based on their legal needs. Built as part of a 4-person team and recognized through multiple university competitions.

HR Management System — SaaS

UI/UX · Web & PWA Development

Designed core interfaces for a data-dense HR platform, including employee dashboards, mood tracking, engagement feeds, and administrative workflows. Contributed to full-stack implementation across responsive interfaces, payroll features, payslip distribution, trainee management, and reimbursement workflows.

Kid's Learning & Booking Platform

Full-Stack Development · Web & PWA

Contributed to the full-stack development of a learning and booking platform, building customer-facing interfaces and booking flows that help parents discover and schedule educational programs for their children.

LiftNow PH — Non-Profit Platform

UI/UX · Web Design · WordPress

Designed and deployed a single-page platform for a non-profit initiative supporting educational assistance for Filipino scholars, taking the project from Figma prototype to live deployment.

Trading Education Prototype

UI/UX · Prototyping

Designed an interactive landing page concept for a beginner-focused trading education platform, exploring clear visual hierarchy, micro-interactions, and motion design.

EDUCATION & CERTIFICATIONS

- BS Information Technology, Specialization in Web & Mobile** – FEU Institute of Technology | Graduated 2025
KonektaLaw Awards: Best Capstone Project · Most Innovative Project · Best Web Application · Best Mobile Application · Best Research Poster · Champion, IT Skills Olympics · 2nd Runner Up, National TechnoFest
- Google UX Design Professional Certificate** – Coursera | Feb 2026
- PMI Project Management Ready™** – Project Management Institute | Dec 2024
- IT Specialist: HTML & CSS** – Certiport | Nov 2024
